### CSS was Introduced in 1996

- Space Jam released
- DVDs launched in Japan
- Internet Explorer 3
- Spice Girls released their first Number 1 "Wannabe"
- Olympics held in Atlanta

- CSS 1
- CSS 2
- CSS 2.1
- CSS 3 (Just CSS?)
- CSS 4
- CSS 5?

Have you ever wondered what happened after CSS3? It's common knowledge that we never saw CSS4 come after it, yet we have a plethora of new features that have no similar way of defining when they were introduced.
